Task	Priority	Status	Who
Use case diagram V1	3	Done	Angel, Ziad, Liu
Use case description V1	3	Done	Ziad, Angel, Liu
Activity Diagram V1	3	Done	Angel,Ziad, Liu

Sprint Description:

The sprint started by analysing the requirements and assigning tasks for each member individually, where the the second and third tasks were blocked until finishing the first task. At the end of the sprint the team could finish the first version of the Use case diagram with a use case description, then the team could work together to make activity diagrams to understand user interaction with the system.

The team now is able to move to the next step of the elaboration where the analysis must be checked and improved.
