Sprint 5

4/Mar/2021-10/Mar/2021

Task	Priority	Status	Who
System Sequence Diagram V2	3	Done	Liu
Domain Model V1	3	Done	Ziad
Architecture Diagram V1	3	Done	Angel

Sprint Description:

The sprint started by assigning the tasks individually to each member of the team, where Liu suggested to work on the SSD, Angel task was blocked until Ziad finished the first version of Domain Model, afterwards Angel could start working on the first version of the Architecture Diagram.

In the end of the sprint the team discussed what had been done and what to do next which will be Design in Elaboration phase.
	A	Estimated Burndown	Actual Burndown
1		Estimated Burndown	Actual Burndown
